SUMMARY

Financial Analysis graduate (MFinA, Rutgers) with experience in financial analysis, financial modeling, valuation, capital markets, and transaction-related research across U.S. and East African financial services. Strong foundation in DCF, comparable company analysis, financial statement analysis, industry research, and scenario modeling, with advanced Excel and SQL skills. Experienced in analyzing complex financial information, identifying business drivers, and translating findings into clear, concise recommendations in deadline-driven environments.

PROFESSIONAL EXPERIENCE

Business Analyst June 2026 – Aug 2026

Citizens Financial Group | NJ

- Built multi-scenario Excel financial models with sensitivity analysis to evaluate downside exposure across a \$500M+ portfolio, validating assumptions and outputs for management review.
- Analyzed transactional and financial data using SQL and Excel to support P&L reconciliation, financial reporting, and audit requests, resolving discrepancies across multiple sources.
- Evaluated financial performance and risk metrics, identifying material variances and business drivers for finance stakeholders.
- Performed detailed data validation and reconciliation across large datasets to strengthen the accuracy of financial analysis.
- Collaborated with finance and operations teams to investigate complex financial issues and deliver time-sensitive analyses.

Operations Analyst June 2024 – Mar 2025

Pesapal | Kenya

- Analyzed \$8M+ in settlement exceptions and reconciliation breaks using Bloomberg Terminal and OMS data, investigating transaction-level discrepancies and underlying financial drivers.
- Conducted financial and operational analysis across treasury processes, evaluating controls, workflows, risks, and opportunities for improvement.
- Developed current- and future-state process analyses across treasury, IT, and vendor teams, identifying opportunities that reduced invoice processing time by approximately 25%.
- Prepared business requirements, use cases, and analytical documentation for a Treasury Management System upgrade.
- Built reporting dashboards to monitor operational KPIs and trade error rates while communicating findings across cross-functional teams.

Finance Associate Intern Analyst Oct 2023 - May 2024

I&M Bank | Kenya

- Analyzed financial statements and prepared management reports using Excel to support financial planning and decision-making.
- Supported budgeting, expense analysis, and financial reconciliation, investigating discrepancies and validating underlying financial data.
- Analyzed financial performance across reporting periods to identify trends and key drivers of results.
- Prepared recurring financial reports and documentation, ensuring accuracy across reporting cycles.

PROJECTS

Financial Airline Industry Panel Analysis

- Evaluated 12 quarters of revenue, operating margins, and profitability across United Airlines, JetBlue Airways, and SkyWest Airlines using comparative financial analysis to identify performance drivers, structural cost pressures, and changes in operating performance.

Costco Fixed Income Credit Analysis

- Conducted credit and relative value analysis of Costco senior notes, evaluating \$10.1B in net cash, 0.58x total debt/EBITDA, yield-to-worst, credit spreads, and relative value versus the U.S. Treasury 10-year benchmark and investment-grade corporate peers.
- Assessed credit quality, leverage, valuation, and downside considerations to evaluate the investment's risk-return profile.
